

GETTING STARTED GUIDE

# The complete Zelto guide

Nine sections, each with the exact path to follow in the application.

*Simple management, finally*

# Contents

Nine sections, each with the exact path to follow in the application. No need to read them in order: each section stands on its own.

|          |                                                                          |       |

| <b>8</b> | <b>Accountant</b><br>Invite, exchange messages, remove access            | p. 10 |
| <b>9</b> | <b>Reminders &amp; Support</b><br>Automate reminders, get help           | p. 11 |

## TO GET STARTED

# Create your account

Creating an account takes less than a minute. No bank card is required.

## PATH

Page d'accueil

Commencer gratuitement

Entreprise ou Comptable

1

**Choose your account type**

"Entreprise" to manage your own business, or "Comptable" to manage clients (the app interface is currently in French).

2

**Fill in your details**

Full name, email and password are enough to get started.

3

**Confirm your email**

A confirmation link is sent to the address provided. The account becomes active upon confirmation.

4

**Complete your profile (optional)**

Path: "Tableau de bord" → profile icon → "Modifier le profil". Tax ID, trade registry number, logo and bank details can be added at any time.

## YOUR CONTACTS

# Manage your clients

A saved client lets you create quotes and invoices without re-entering their details.

## PATH

Tableau de bord → Clients → + Ajouter

1

**Add a client**

Name, phone, email. Tax ID and payment terms are optional.

2

**Find an existing client**

Path: "Clients" → search field at the top of the list.

3

**View their full record**

Path: "Clients" → click the client's name. Shows their invoices, quotes and payments received.

4

**Create an invoice from their record**

The "Nouvelle facture pour ce client" button at the bottom of the record automatically fills in the name.

**GOOD TO KNOW**

If the client already has a Zelto account, they can be found in the Directory ("Profil" → "Annuaire Zelto"), which automatically links documents between both accounts.

## YOUR SALES

# Create a quote

A quote proposes a price before the client's final agreement.

## PATH

Tableau de bord → Devis → + Nouveau

1

**Select the client**

Search among saved clients, or enter a new name.

2

**Add line items**

Manually, or from the catalog if the items are already saved there.

3

**Send**

PDF button, then choose between WhatsApp, email or a direct link.

4

**Convert to invoice**

Path: "Devis" → quote with "Accepté" status → conversion button. Copies the line items and assigns an invoice number.

**GOOD TO KNOW**

The client accepts or declines from their phone, with no Zelto account required.

## YOUR SALES

# Create and track an invoice

An invoice can be created directly, or come from an accepted quote.

## PATH

Tableau de bord → Facture → + Nouveau

1

**Create the invoice**

Client, line items, payment method. Automatic numbering.

2

**Record a payment**

Path: open the invoice → payment button. A partial payment keeps the invoice "En attente" until fully settled.

3

**Track overdue invoices**

Path: "Tableau de bord" → "Factures en retard" banner, or "Profil" → "Relances".

4

**Exchange messages with your accountant**

Path: open the invoice → notes thread at the bottom of the screen. Visible to both sides.

## YOUR SALES

# Issue a credit note

A credit note cancels or corrects an invoice already issued.

## PATH

Tableau de bord

Avoir

1

**Select the original invoice**

The list only shows invoices already issued.

2

**Choose the reason**

Full cancellation, partial refund, error correction, or returned goods.

3

**Issue the credit note**

The amount is calculated automatically before and after tax.

**GOOD TO KNOW**

For a full cancellation of an invoice linked to the catalog, the sold items are automatically returned to stock.

## YOUR PURCHASES

# Purchases & suppliers

Purchase orders, receiving and purchase invoices, all in one section.

## PATH

Tableau de bord

Achats

1

**Send a purchase order**

Path: "Achats" → "Bon de commande". The supplier receives a notification if they have a Zelto account.

2

**Record a purchase invoice**

Path: "Achats" → "+ Nouvelle facture d'achat". A photo can be taken for automatic reading of the amount.

3

**Confirm a received purchase order**

Path: "Profil" → "Bons de commande reçus". Converts to a sales invoice in one click.

4

**Request a quote before ordering**

Path: "Achats" → "Demander un devis". Useful for comparing prices before committing.

## YOUR CATALOG

# Track stock

Stock tracking is optional and is enabled item by item.

## PATH

Tableau de bord → Catalogue

1

**Enable tracking for an item**

Enter a quantity when creating the item, or in its record.

---

2

**Adjust stock manually**

Path: "Catalogue" →  icon on the item. Stock in, stock out, or new value.

---

3

**View history**

Path: "Catalogue" →  icon on the item. Every movement, sale or purchase, is listed there.

---

4

**View overall stock value**

Path: "Tableau de bord" → "Stock". Total value and low-stock alerts.

## YOUR ACCOUNTING

# Invite your accountant

Once invited, they view your documents directly, with no file exchange needed.

## PATH

Tableau de bord → Profil → Mon comptable

1

**Send the invitation**

Using the accountant's email if they already have a Zelto account, or via link.

2

**The accountant accepts**

From their own account, they confirm access.

3

**Discuss an invoice**

Path: open an invoice → notes thread at the bottom of the screen.

4

**Remove access**

Path: "Profil" → "Mon comptable" → "Retirer". Does not affect documents already created.

## REMINDERS AND ASSISTANCE

# Automatic reminders & Support

Two independent features, each with its own path.

## AUTOMATIC REMINDERS

## PATH

Profil → Paramètres → Relances automatiques

1

**Enable the toggle**

Set how many days before the due date the first message is sent.

2

**Customize the messages**

Three separate messages: before the due date, on the due date, and overdue.

## SUPPORT

## PATH

Profil → Support

1

**Contact support**

A real person responds, with live chat to continue the conversation.

## You now know all nine sections

Every path shown in this guide remains valid at any time. Stuck on something, or a question left unanswered? Support responds directly from the application.

Support available from the application

"Support" section, accessible from the profile

A real person responds, not a bot
